## **DIPLOMA IN CSE AND BSC AGRICULTURE: BEST DEGREE COURSES TO KICK-START A SUCCESSFUL CAREER**

In this era of digital transformation, technology has owned our lives. From using mobile phones for e-commerce shopping and banking transactions to enjoying full-on entertainment on the OTT platforms, our life seems very difficult without technology.

Diploma in Computer Science and Engineering (CSE) can become the most promising career option in the present situation. As a three-year degree course, the subject will give you deep insight into computer hardware and software alongside computer programming, networking, computer systems etc. India, being the Epitome of Agriculture, another degree course that present-day Indian students highly prefer is B.Sc in Agriculture. Indeed, extreme technological progress has contributed to the growth of the agricultural sector, resulting in high career opportunities for students. Hence, if working in this field is your dream, go ahead resolutely. The leading agriculture colleges offer their students a four-year undergraduate course involving research and the latest technological practice in agriculture.

### **The criterion to get admission in CSE Diploma and BSc Agriculture**

To enrol in elite educational institutions, you require qualifying their eligibility criteria. Here they are:

**Diploma in CSE:** If you are a general candidate, you must have at least 50% marks in your standard 10th examination with subjects like Maths and Science to pursue a Diploma in Computer Science and Engineering from top engineering colleges. However, for SC/ST candidates, a minimum of 45% is a must-have. You can also seek lateral entry to the second year of your degree course, but in that case, you require a 60% score in your Higher Secondary examination or ITI in its respective branch.
